

Applicant Assessment

In this service, we will provide a comprehensive assessment of your future application to help you develop a game plan for a successful pre-application preparation to make you the strongest applicant possible!

Price: \$800 USD

Want to know what medical schools are looking for in their applicants? We're here to help!

Work with a seasoned admissions expert on a strategy that will assess all aspects of your current applicant profile to provide you with feedback to develop a plan to enhance your chances for acceptance.

What's Included

- Based on your intake assessment, your Admissions Expert will review your current applicant profile to identify your strengths and weaknesses and provide you with advice on ways to improve your future application credentials.
- Your Admissions Expert will then schedule a phone call with you where they will then review their assessment with you and provide you with advice on what you can improve and ways to address these. During this call, you can ask questions and discuss our recommendations.
- Next, we will provide extensive written feedback and advice on how to improve all elements of your future application, including how to handle weaknesses and highlight your unique strengths.
- In addition, you will have thirty days of access to our online portal to keep you connected to your Admissions Expert for any additional questions.
- If, within 30 days of purchase, you decide to purchase an Admissions Counseling or Premier Admissions Counseling Package for your application preparations, we will credit **100%** of your Applicant Assessment cost towards your admissions counseling package.
